Health

Research Excellence
Advancing Employee
Health

The Centre for Research on Work Disability Policy (CRWDP) is a transdisciplinary initiative on the future of work disability policy in Canada. Our objective is to identify how people, when disabled, can be better retained and integrated into the Canadian labour market. The Centre's national office is at the Institute for Work & Health in Toronto.

The Institute for Work & Health is an independent, not-for-profit research organization in Ontario whose activities strive to reduce injury, illness and disability in the Ontario workforce. The Institute for Work & Health is committed to excellent working conditions and a cooperative, team environment for its employees.

We are seeking an individual for the position of:

Research Analyst - PhD Student 1 year - part-time position at 10 hours per week

CORE FUNCTIONS:

The successful candidate will be enrolled in a PhD Program in health policy or public health and have an interest in applied research in work disability policy and management. The successful candidate will work closely with several researchers whose work is focused on work disability policy and management. The key research project is a mixed methods study that includes a literature synthesis and quantitative and qualitative analyses.

PRINCIPLE DUTIES AND RESPONSIBILITIES:

- provide support for a study involving a scoping review, analysis of administrative data, and qualitative field data collection
- participate in all phases of a scoping review, which may include title abstract review, data extraction and synthesis;
- support data management for the quantitative component of the study, including extracting data from administrative data bases, developing quantitative measures to be used for analysis, and preparing written data documentation specifications
- design and create tables, charts, and graphs for research reports and presentation materials
- assist with preparation of a research report, with particular responsibility for documenting research methodology

EDUCATION AND EXPERIENCE

The candidate must be a PhD student and have strong evidence synthesis, analytic and interpretation skills. Experience with other statistical software packages and programming languages, demonstrated involvement with previous research publications, and an interest in team work are definite assets. Please note that some travel within the GTA will be required.

SALARY

The position is funded through Social Sciences and Humanities Research Council Partnership Grant and other funding sources. The hourly rate will depend on experience and is in the range of \$25 to \$30.

If you are interested in this position, please submit your application no later than **Friday, September 29th** by mail or e-mail to: M. Cicinelli, Director Human Resources & Corporate Services, 481 University Avenue, Suite 800, Toronto, Ontario. M5G 2E9, e-mail: mcicinelli@iwh.on.ca.

The Institute, guided by a Board of Directors and an international Scientific Advisory Committee, has been described as one of the top five occupational health and safety research centres in the world. The Institute has an active knowledge transfer and exchange (KTE) program, which implements interactive strategies to transfer research findings to key decision-makers. The Institute for Work & Health operates with the support of the Ministry of Labour. For more information about our organization, visit our website at www.iwh.on.ca

The Institute is an equal opportunity employer and welcomes applications from all qualified candidates. We thank all applicants, but only those considered for the position will be contacted. For more information about our organization, visit our web site at www.iwh.on.ca
